

Skytz Consulting

Principal Electrical Engineer (m/f/d)

- Company: International construction company
- Location: New York
- Job type: Hybrid, full time

Our client is looking for a **Principal Electrical Engineer (m/f/d)** who is able providing technical expertise and leadership for multiple projects.

Tasks

- Lead project teams to drive successful outcomes and meet project objectives
- Collaborate with clients, architects, and team members to deliver top-notch solutions
- Oversee design drawings, specifications, reports, and other deliverables
- Build productive client relationships, addressing needs proactively and ensuring satisfaction
- Direct multiple projects, ensuring successful engineering solutions and financial success
- Maintain high technical standards, staying at the forefront of industry advancements
- Ensure engineering practices, policies, and services align with client interests and comply with law
- Held responsible for profitability of projects (monitor finance, resources and expenditure)

Profile

- Over 15 years of experience and leadership in Electrical Engineering within construction industry
- Bachelor's or Master's in Elec. Eng. or a related field; Professional Engineer (P.E.) or equivalent
- Excellent knowledge of electrical systems and good knowledge of other MEP systems
- Practical understanding of renewable solutions, battery storage and SMART Building integration
- LEED AP accreditation preferred
- Familiarity with software like Revit for design drawings and/or tools like SKM and SAM
- Excellent leadership skills including mentoring and coaching junior engineers
- Success in client acquisition and maintaining long-term client relationships preferred

Our client's offer

- Generous benefits package
- Annual discretionary bonus
- Generous PTO 5 weeks in addition to 10 paid holidays
- 401k with company match
- Hybrid working & summer hours
- Reimbursement for certain professional licenses and associated renewals and exam fees
